

## Quiz Questions

### Module 6 | Lesson 6.1 – The Listings Component

1. Which of the following best describes the snippet of code below?

```
import React from "react";  
  
export const HelloWorld = () => {  
  return <h2>Hello World!</h2>;  
};
```

- A:** We're creating an immutable HelloWorld React element.
- B:** We're creating a class HelloWorld component that returns a React element.
- C:** We're creating a function HelloWorld component that returns a React element.
- D:** Any of the above is a good description.
