

# MODULE 9

## 9.1 - UI FRAMEWORKS AND ANT DESIGN

## Buttons

## Tables

Name	Age	Address	Tags	Action
John Brown	32	New York No. 1 Lake Park	NICE	Invite John Brown   Delete
Jim Green	42	London No. 1 Lake Park	SPICY	Invite Jim Green   Delete
Joe Black	32	Sidney No. 1 Lake Park	COOL	Invite Joe Black   Delete

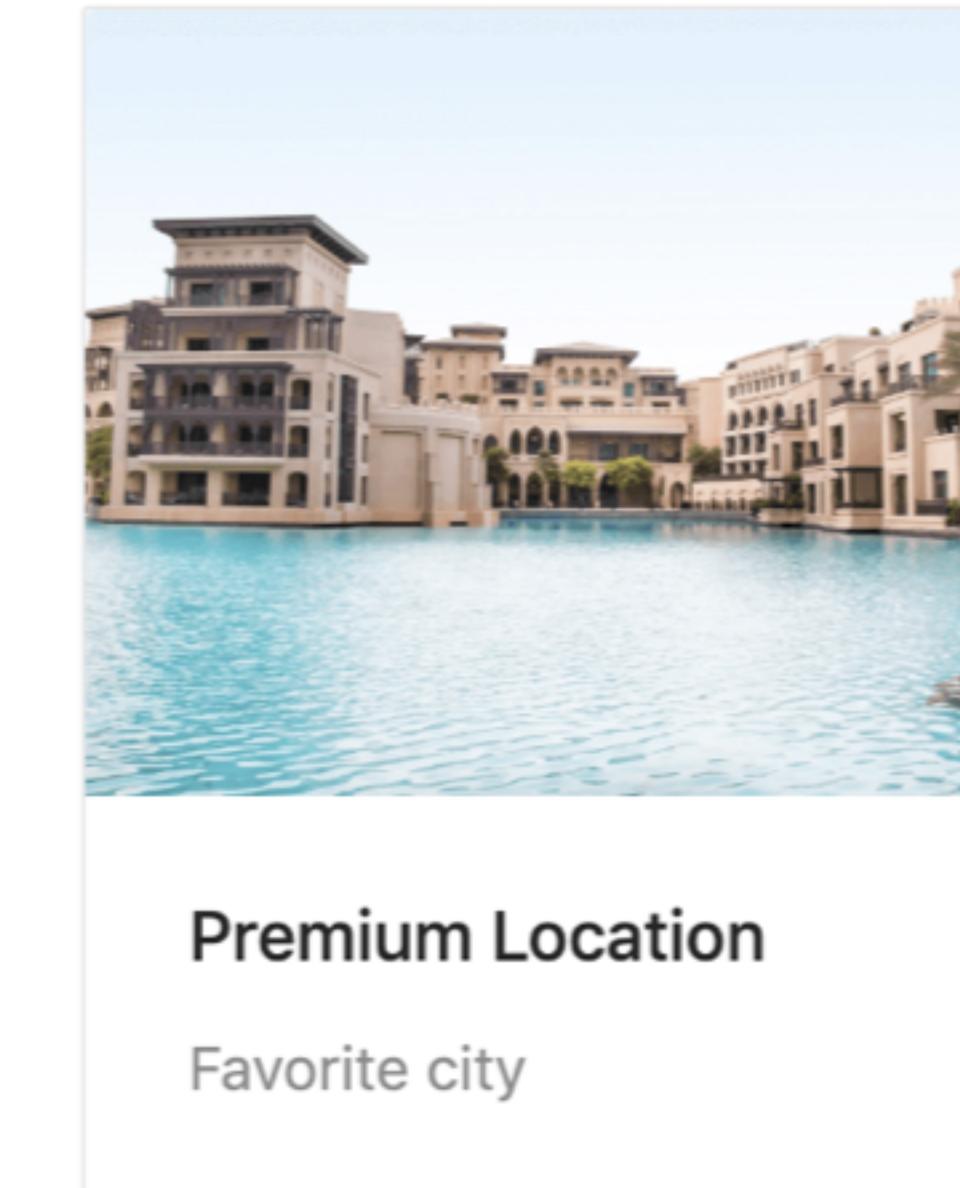

## Forms

A login form interface:

- Username input field with placeholder "Username".
- Password input field with placeholder "Password".
- Checkboxes:  Remember me,  Forgot password.
- Log in button.

Or [register now!](#)

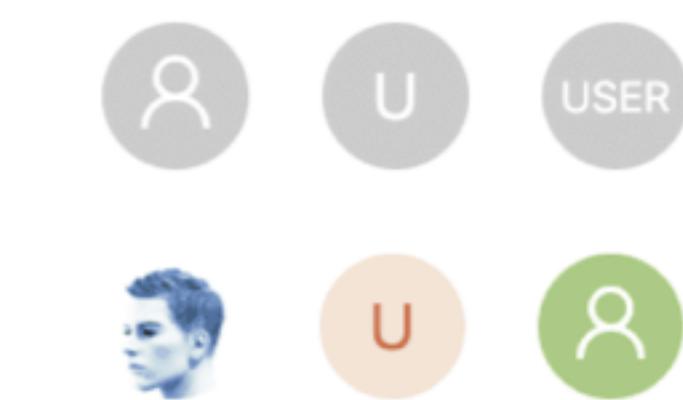

## Cards

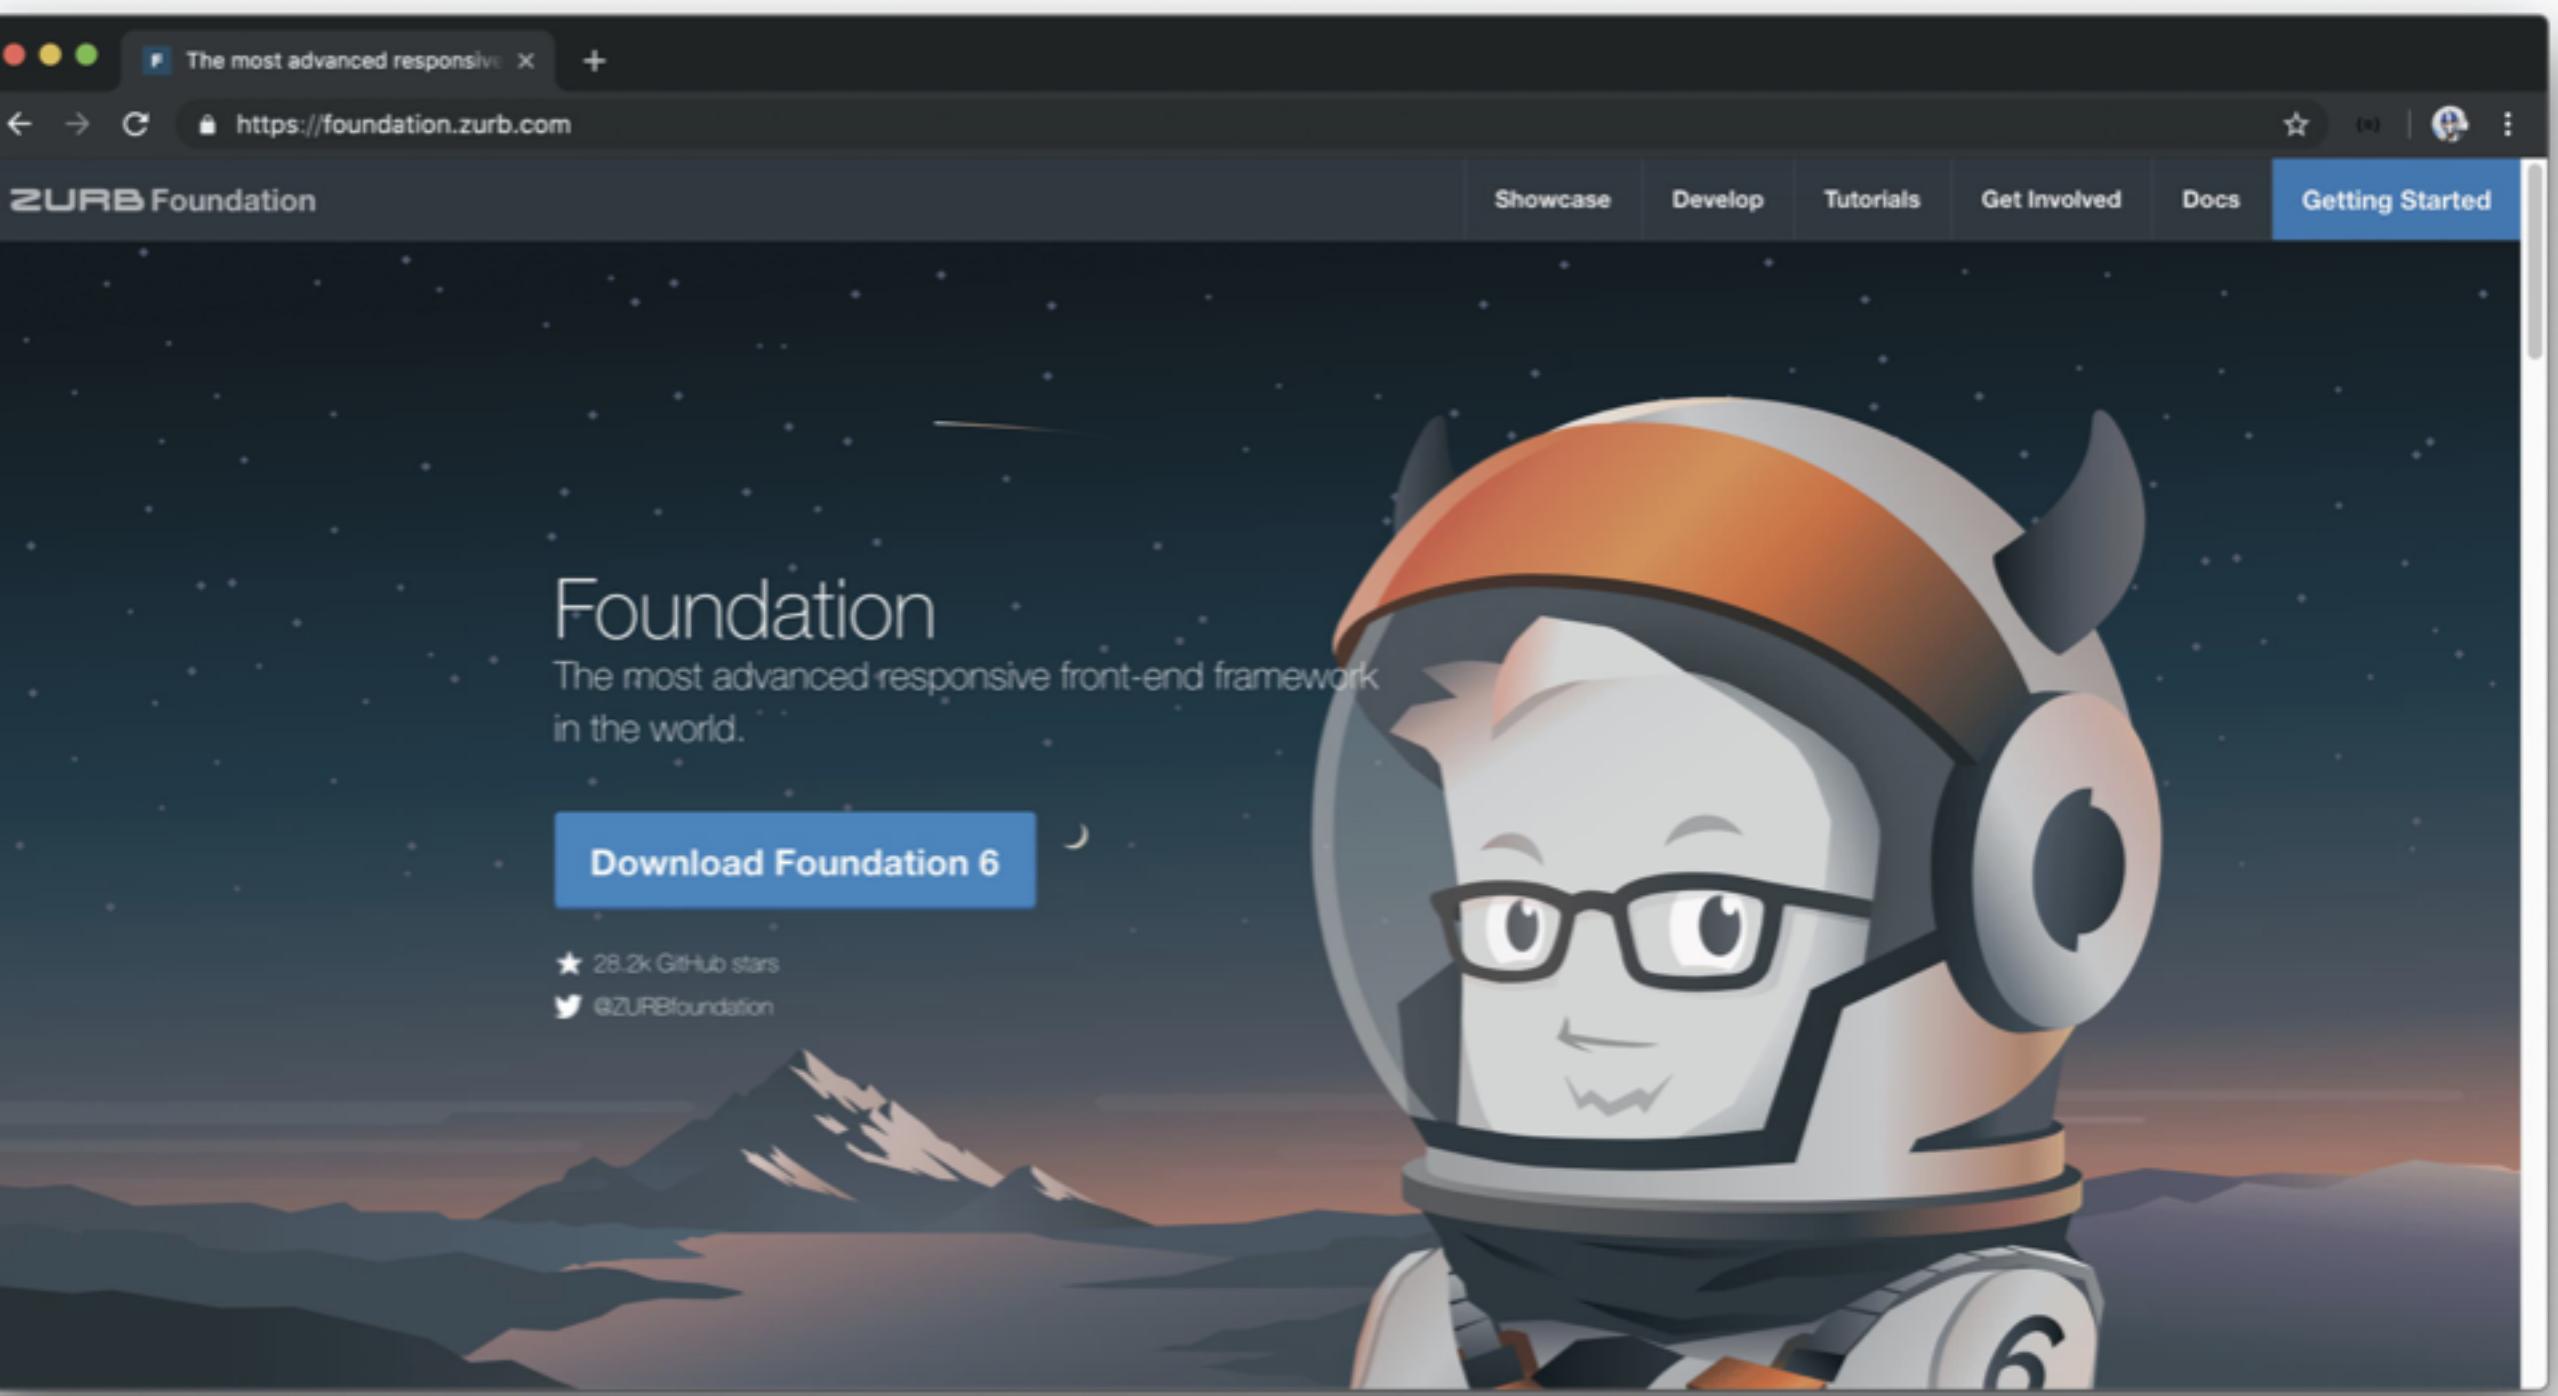

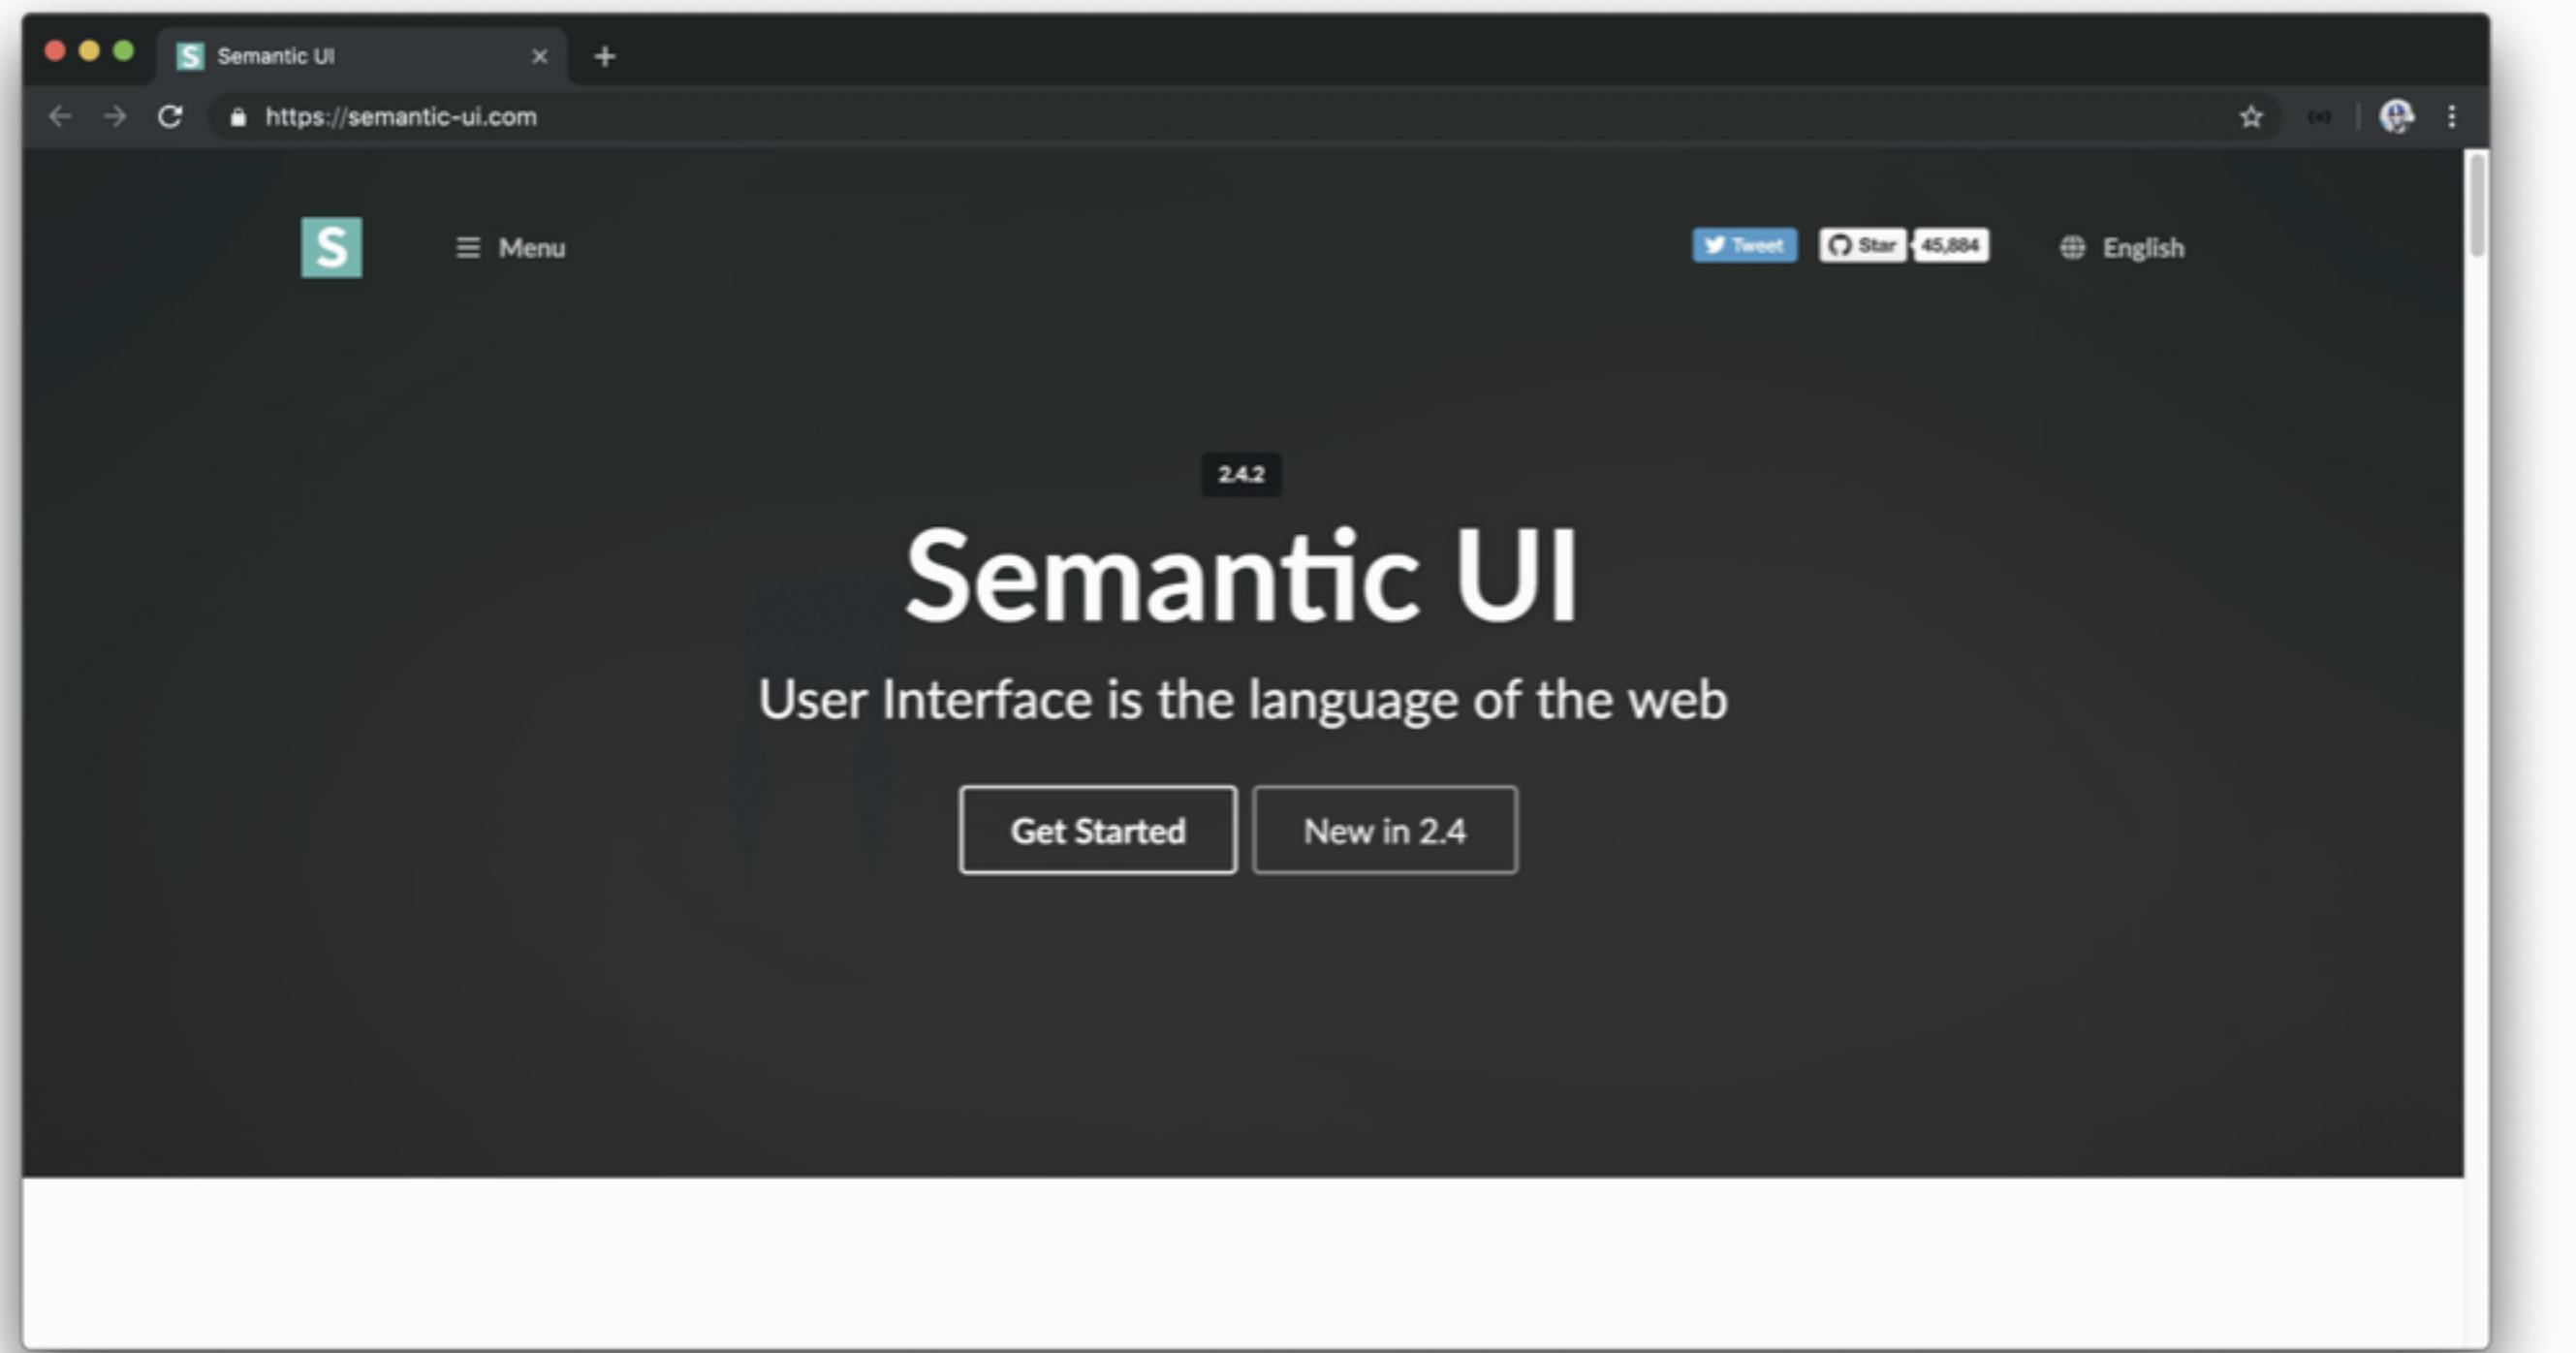

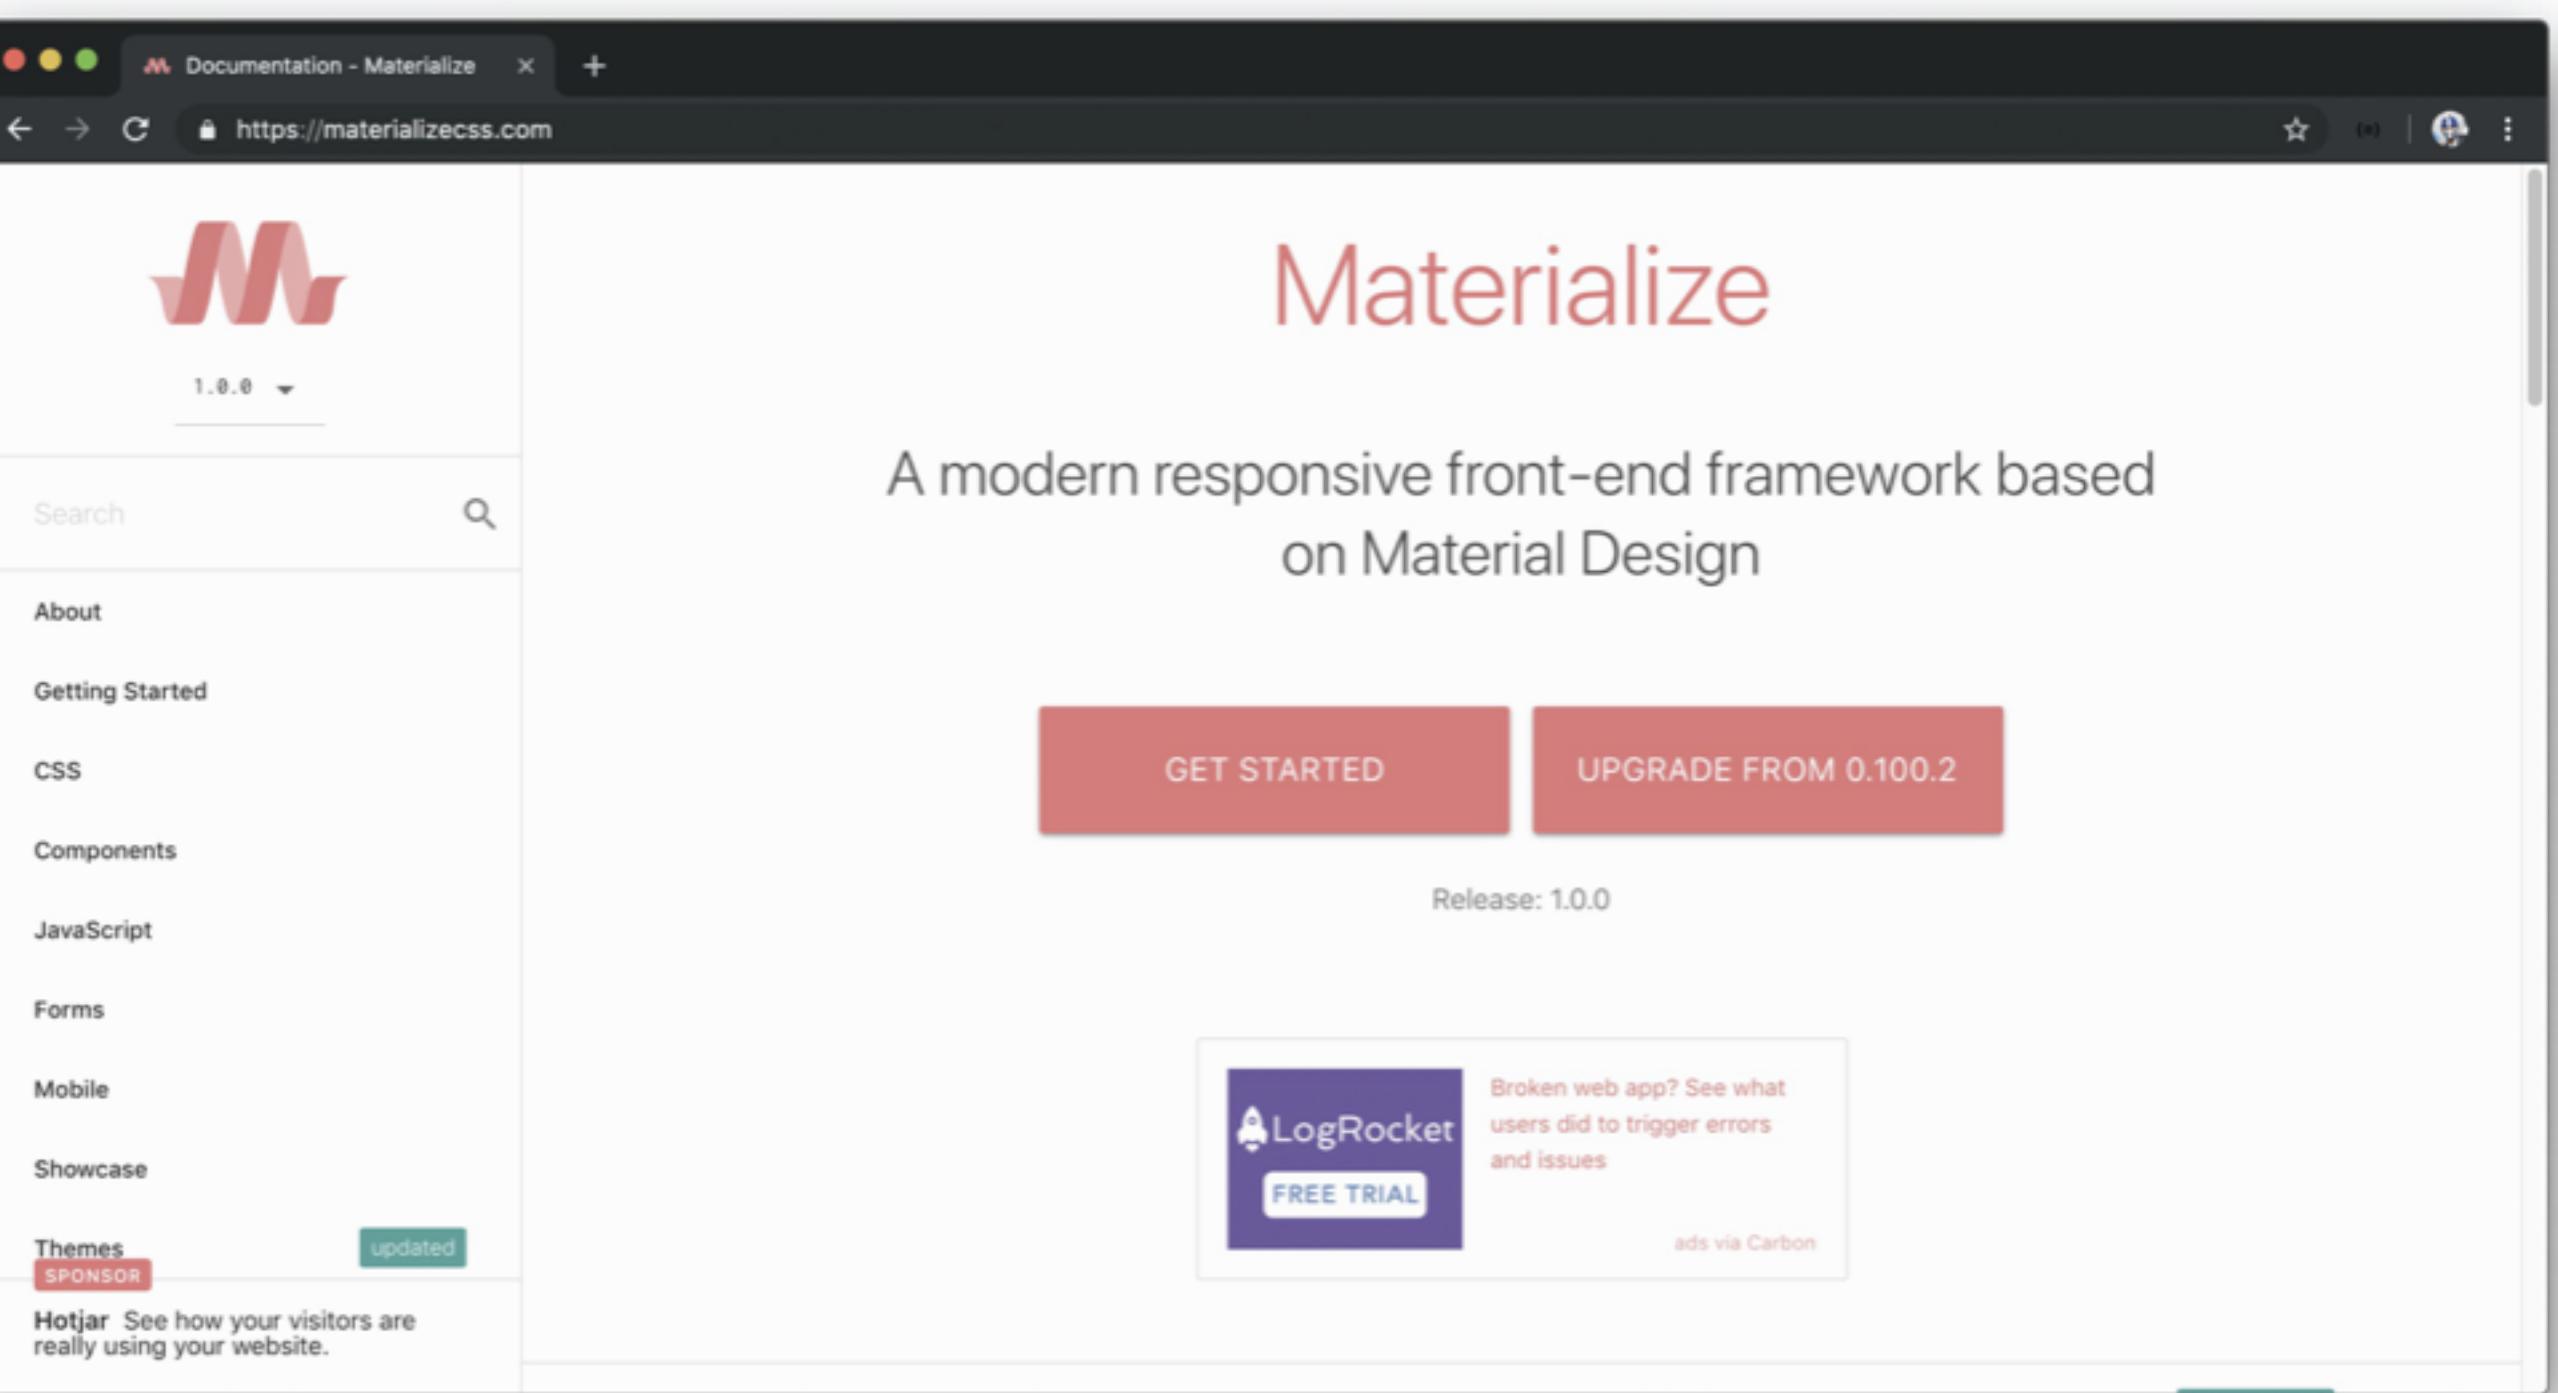

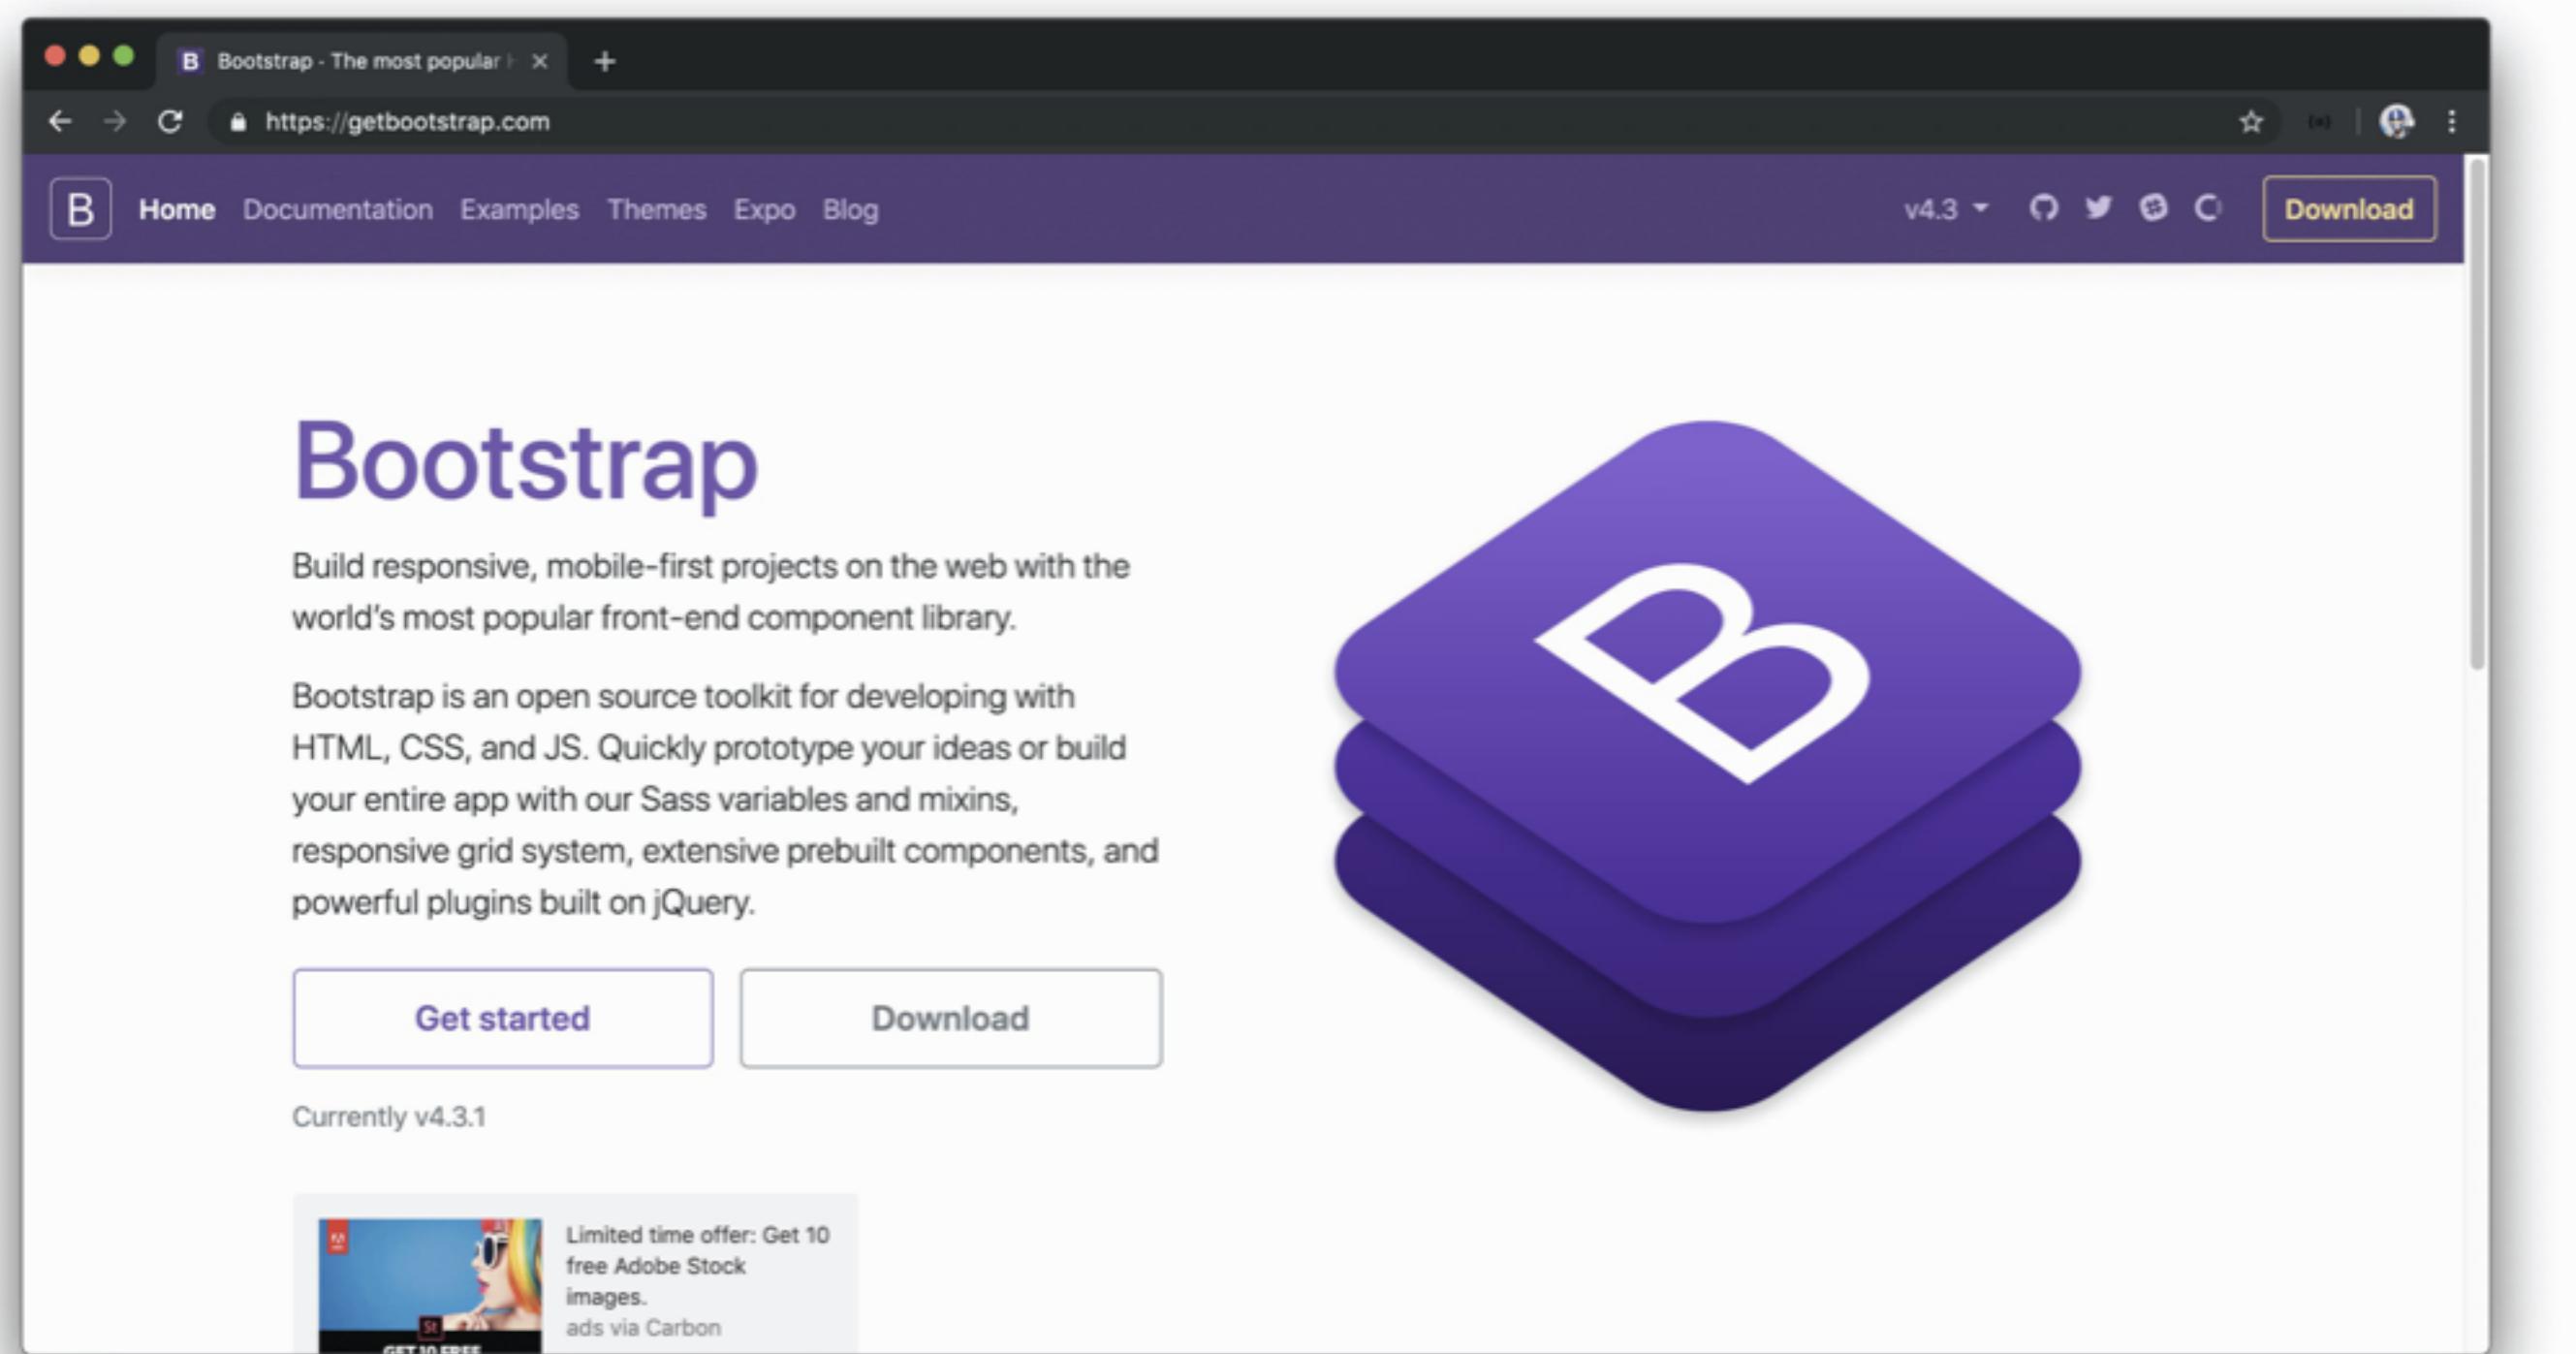

## Indicators

- Success Tips
- Informational Notes
- Warning
- Error

## Icons

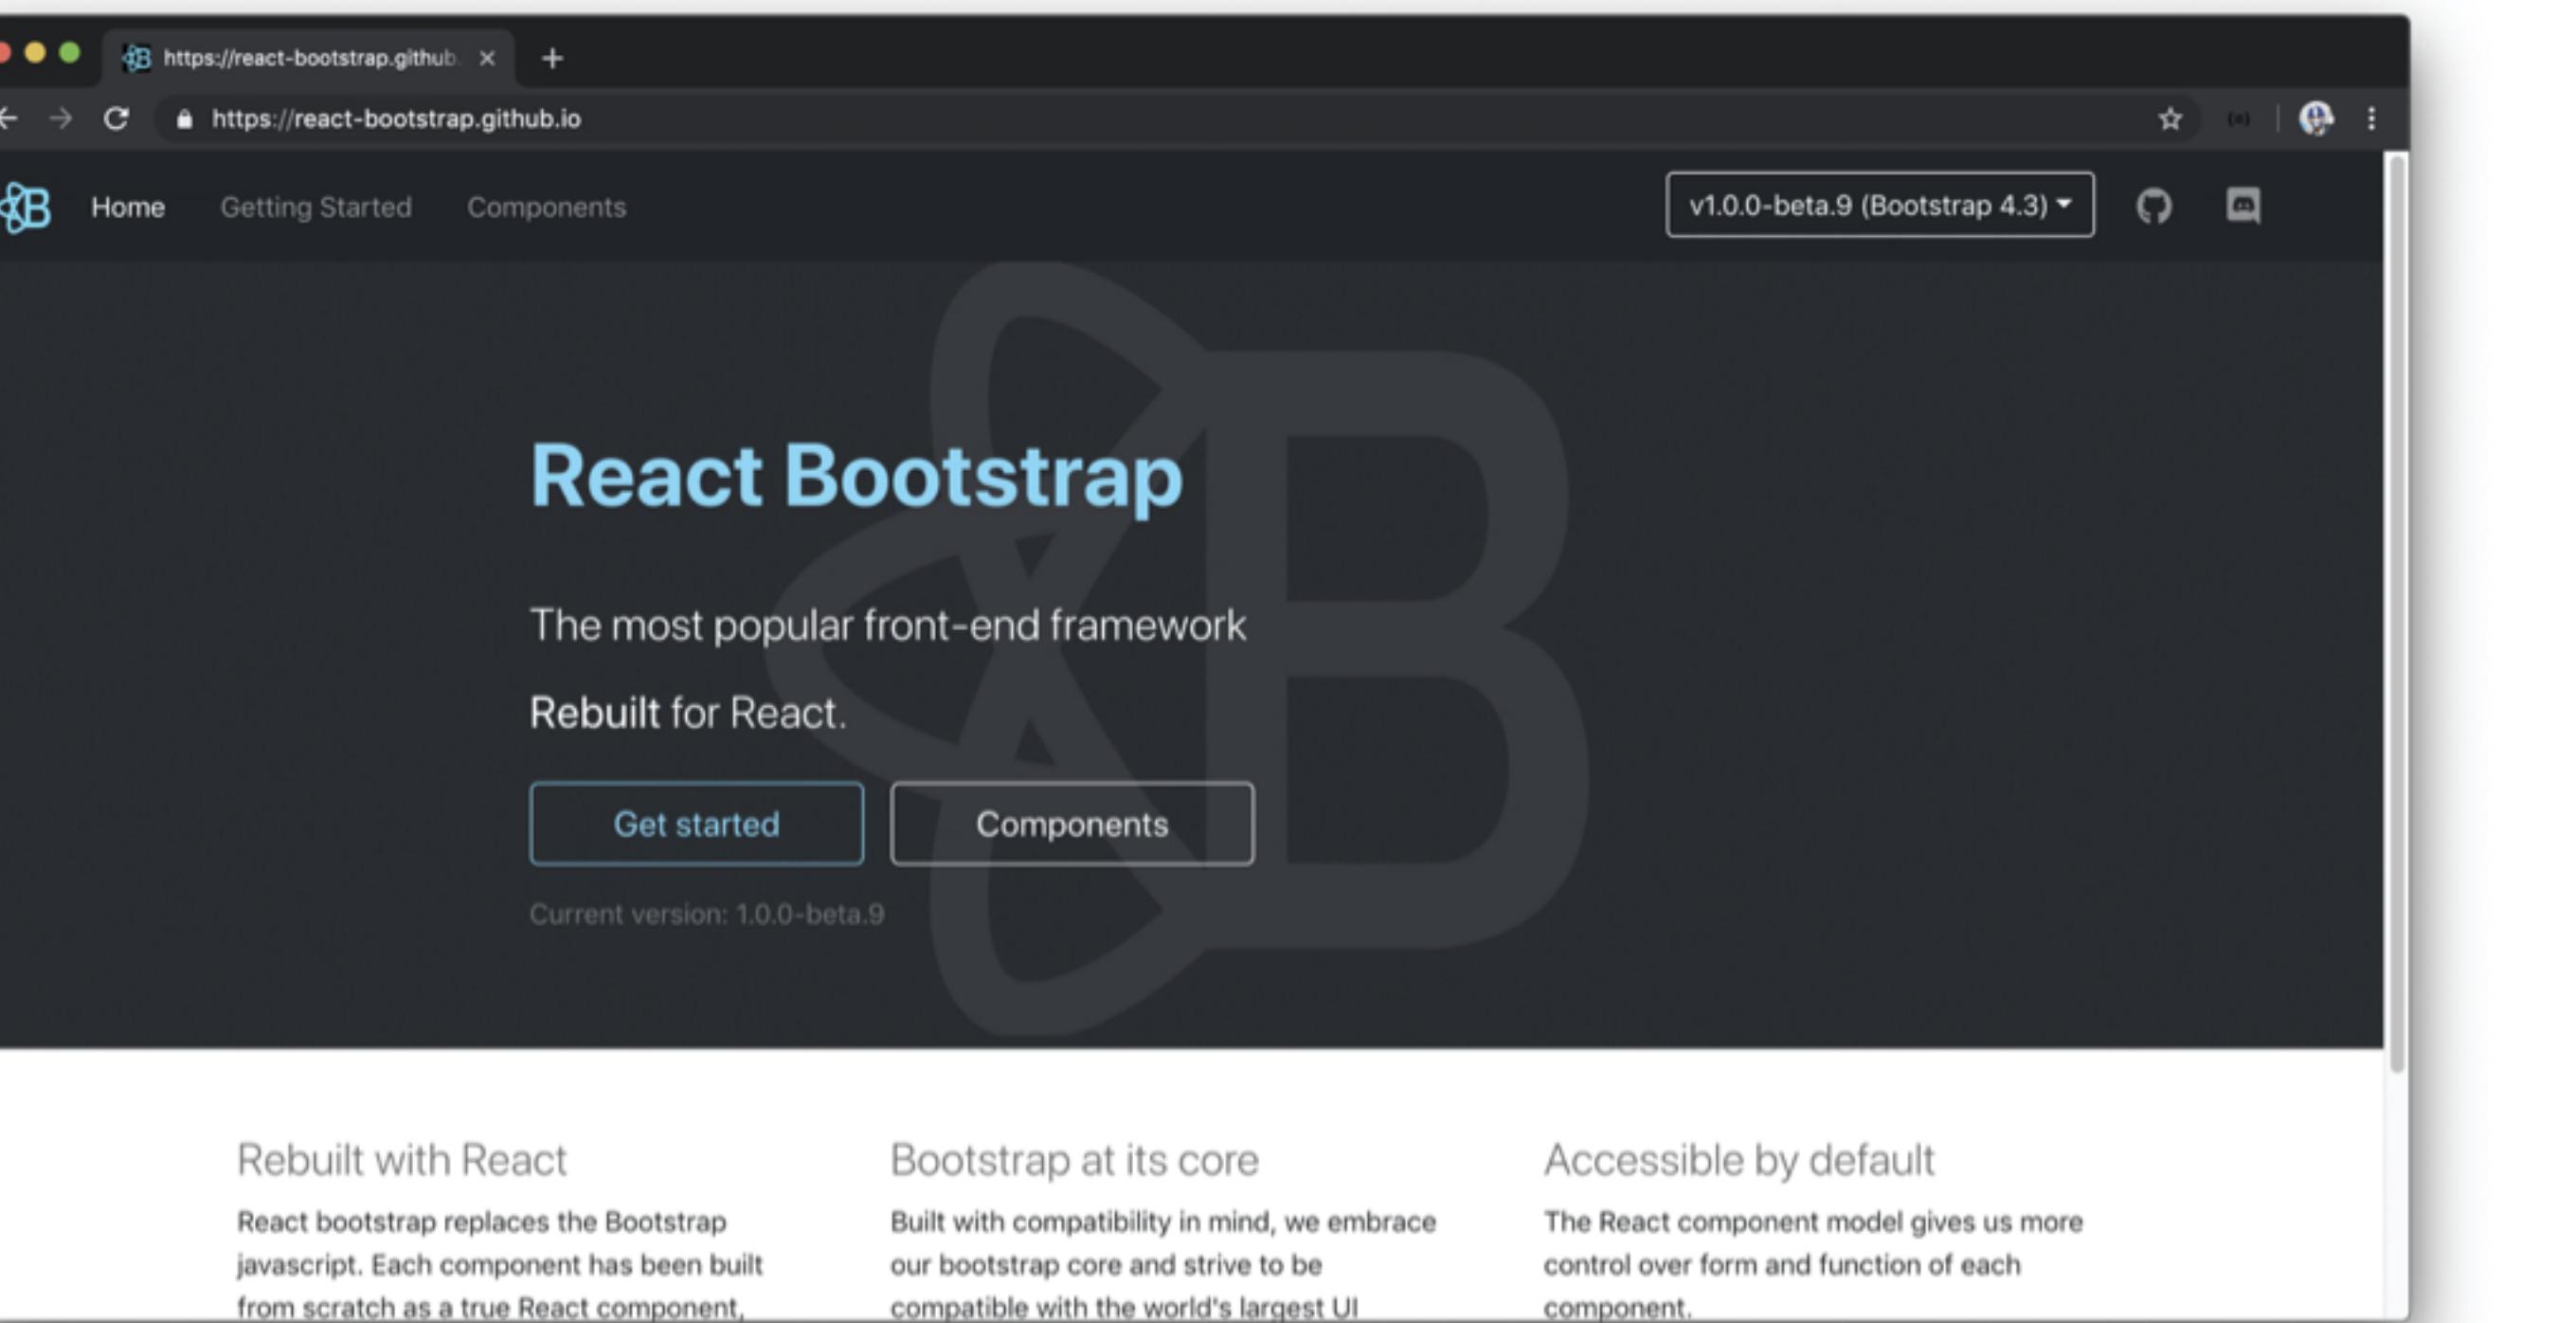

```
<div class="card">
  <div class="card-image">
    <!-- ... -->
  </div>
  <div class="card-content">
    <div class="media">
      <!-- ... -->
    </div>
  </div>
  <div class="content">
    <!-- ... -->
  </div>
</div>
```

Premium Beachfront Suite...

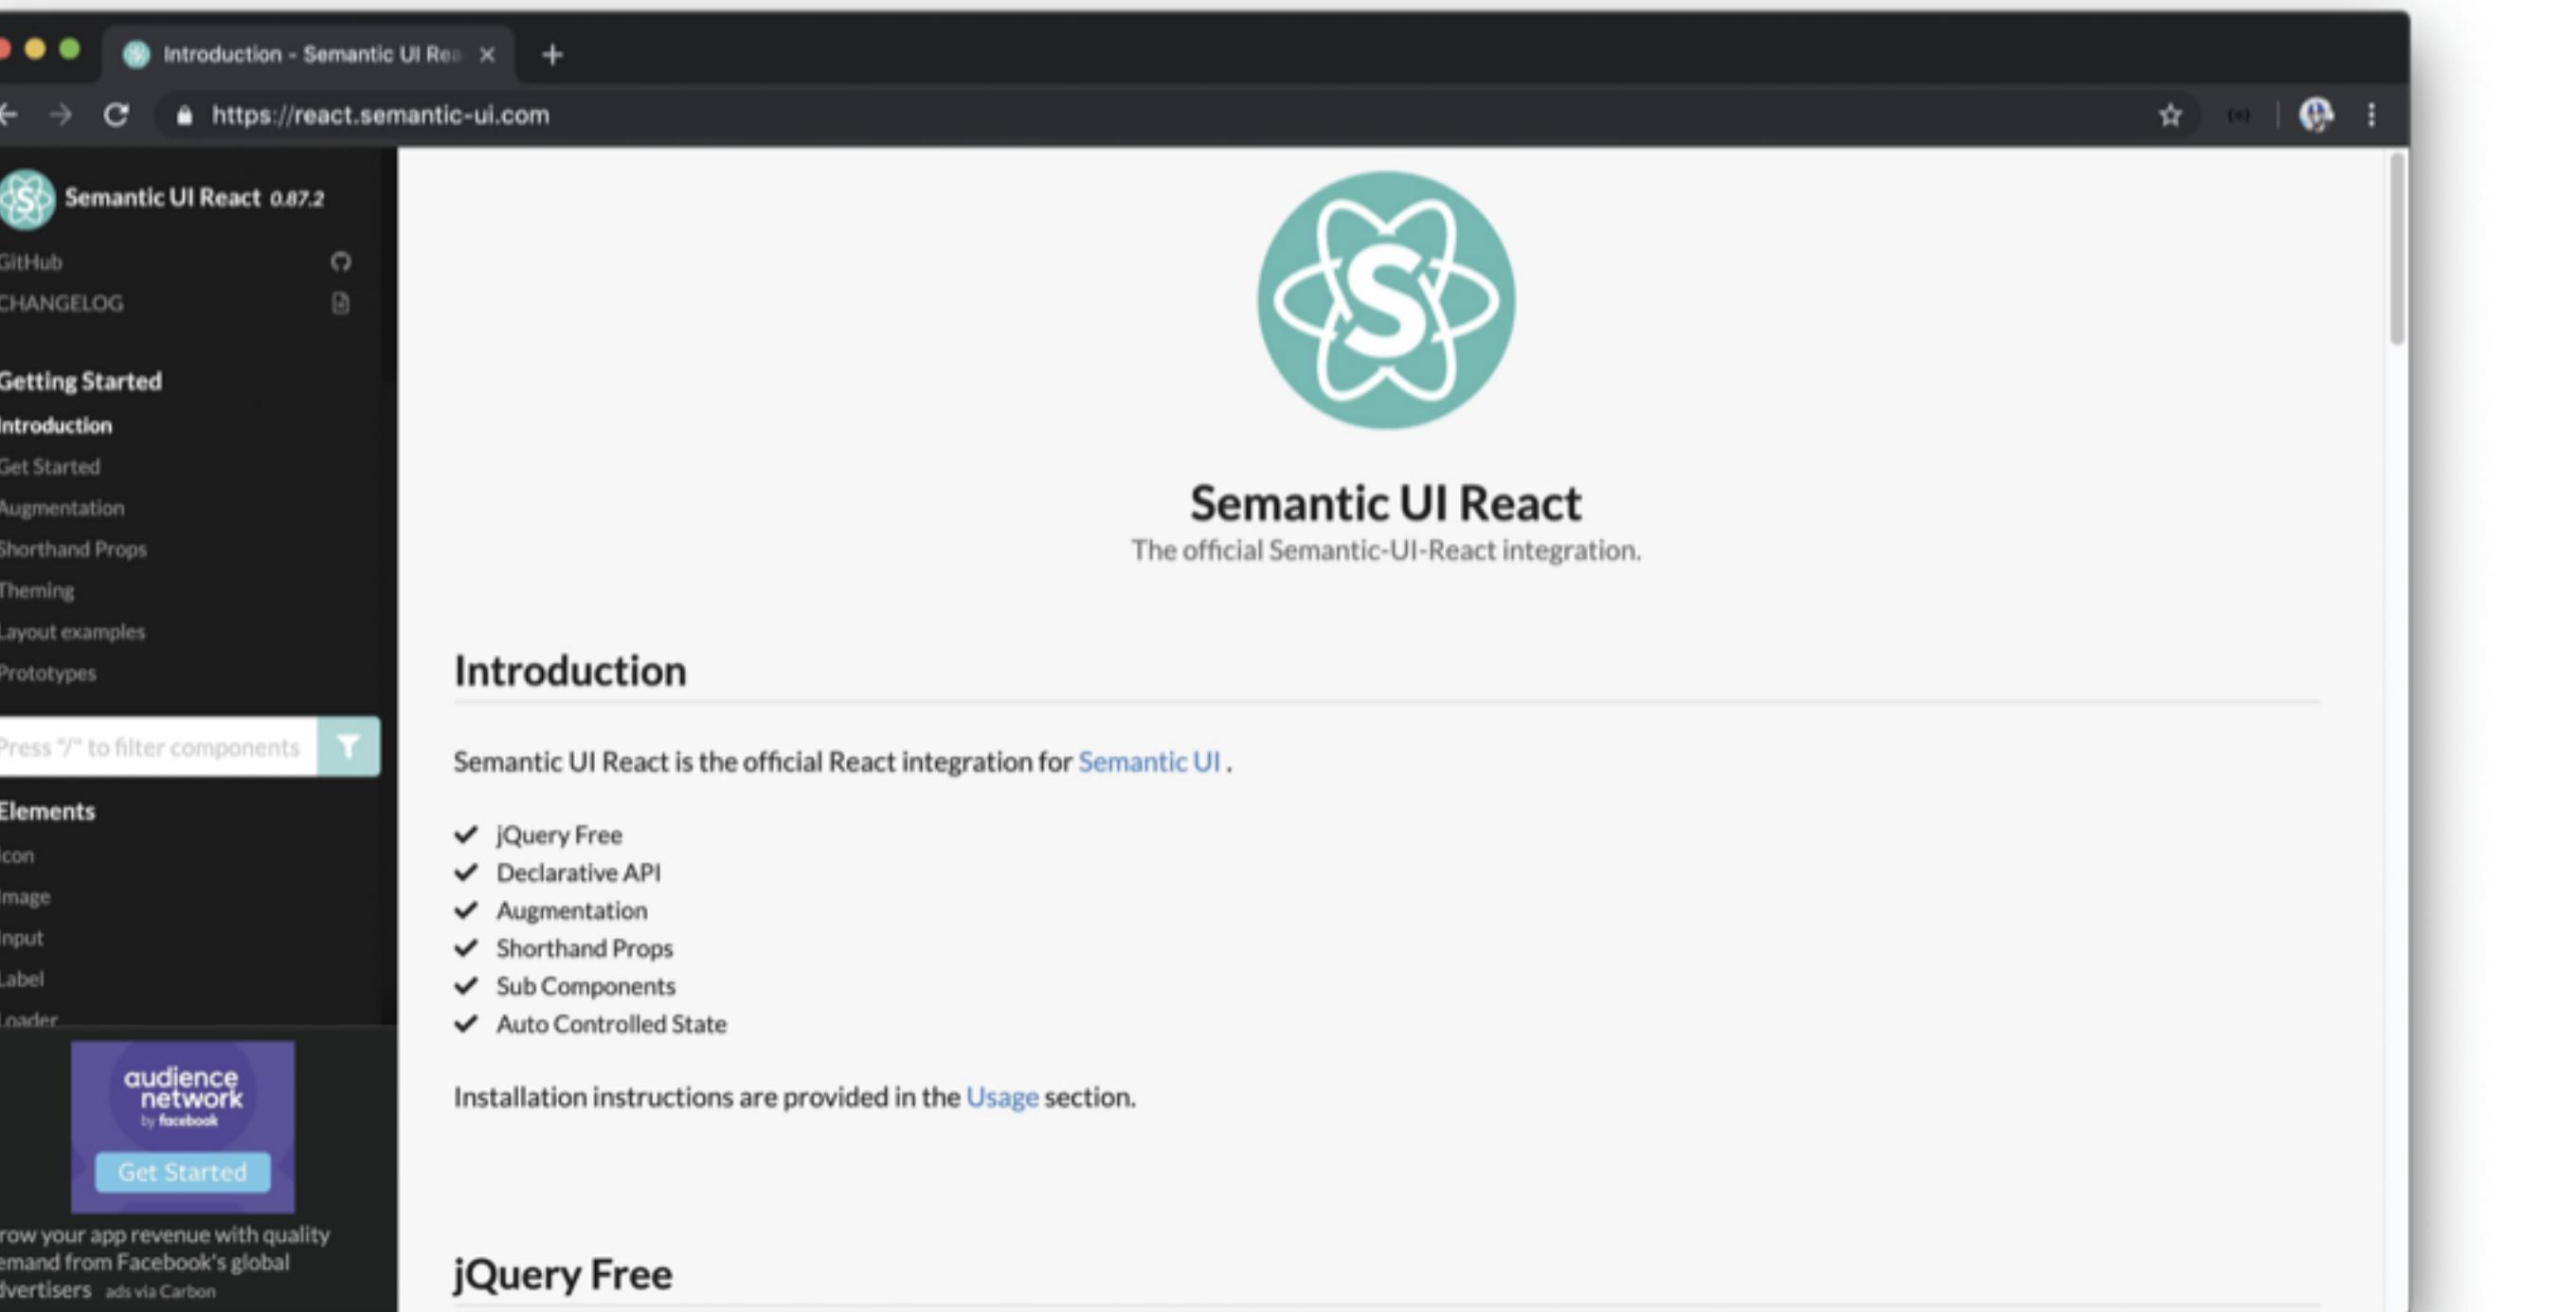

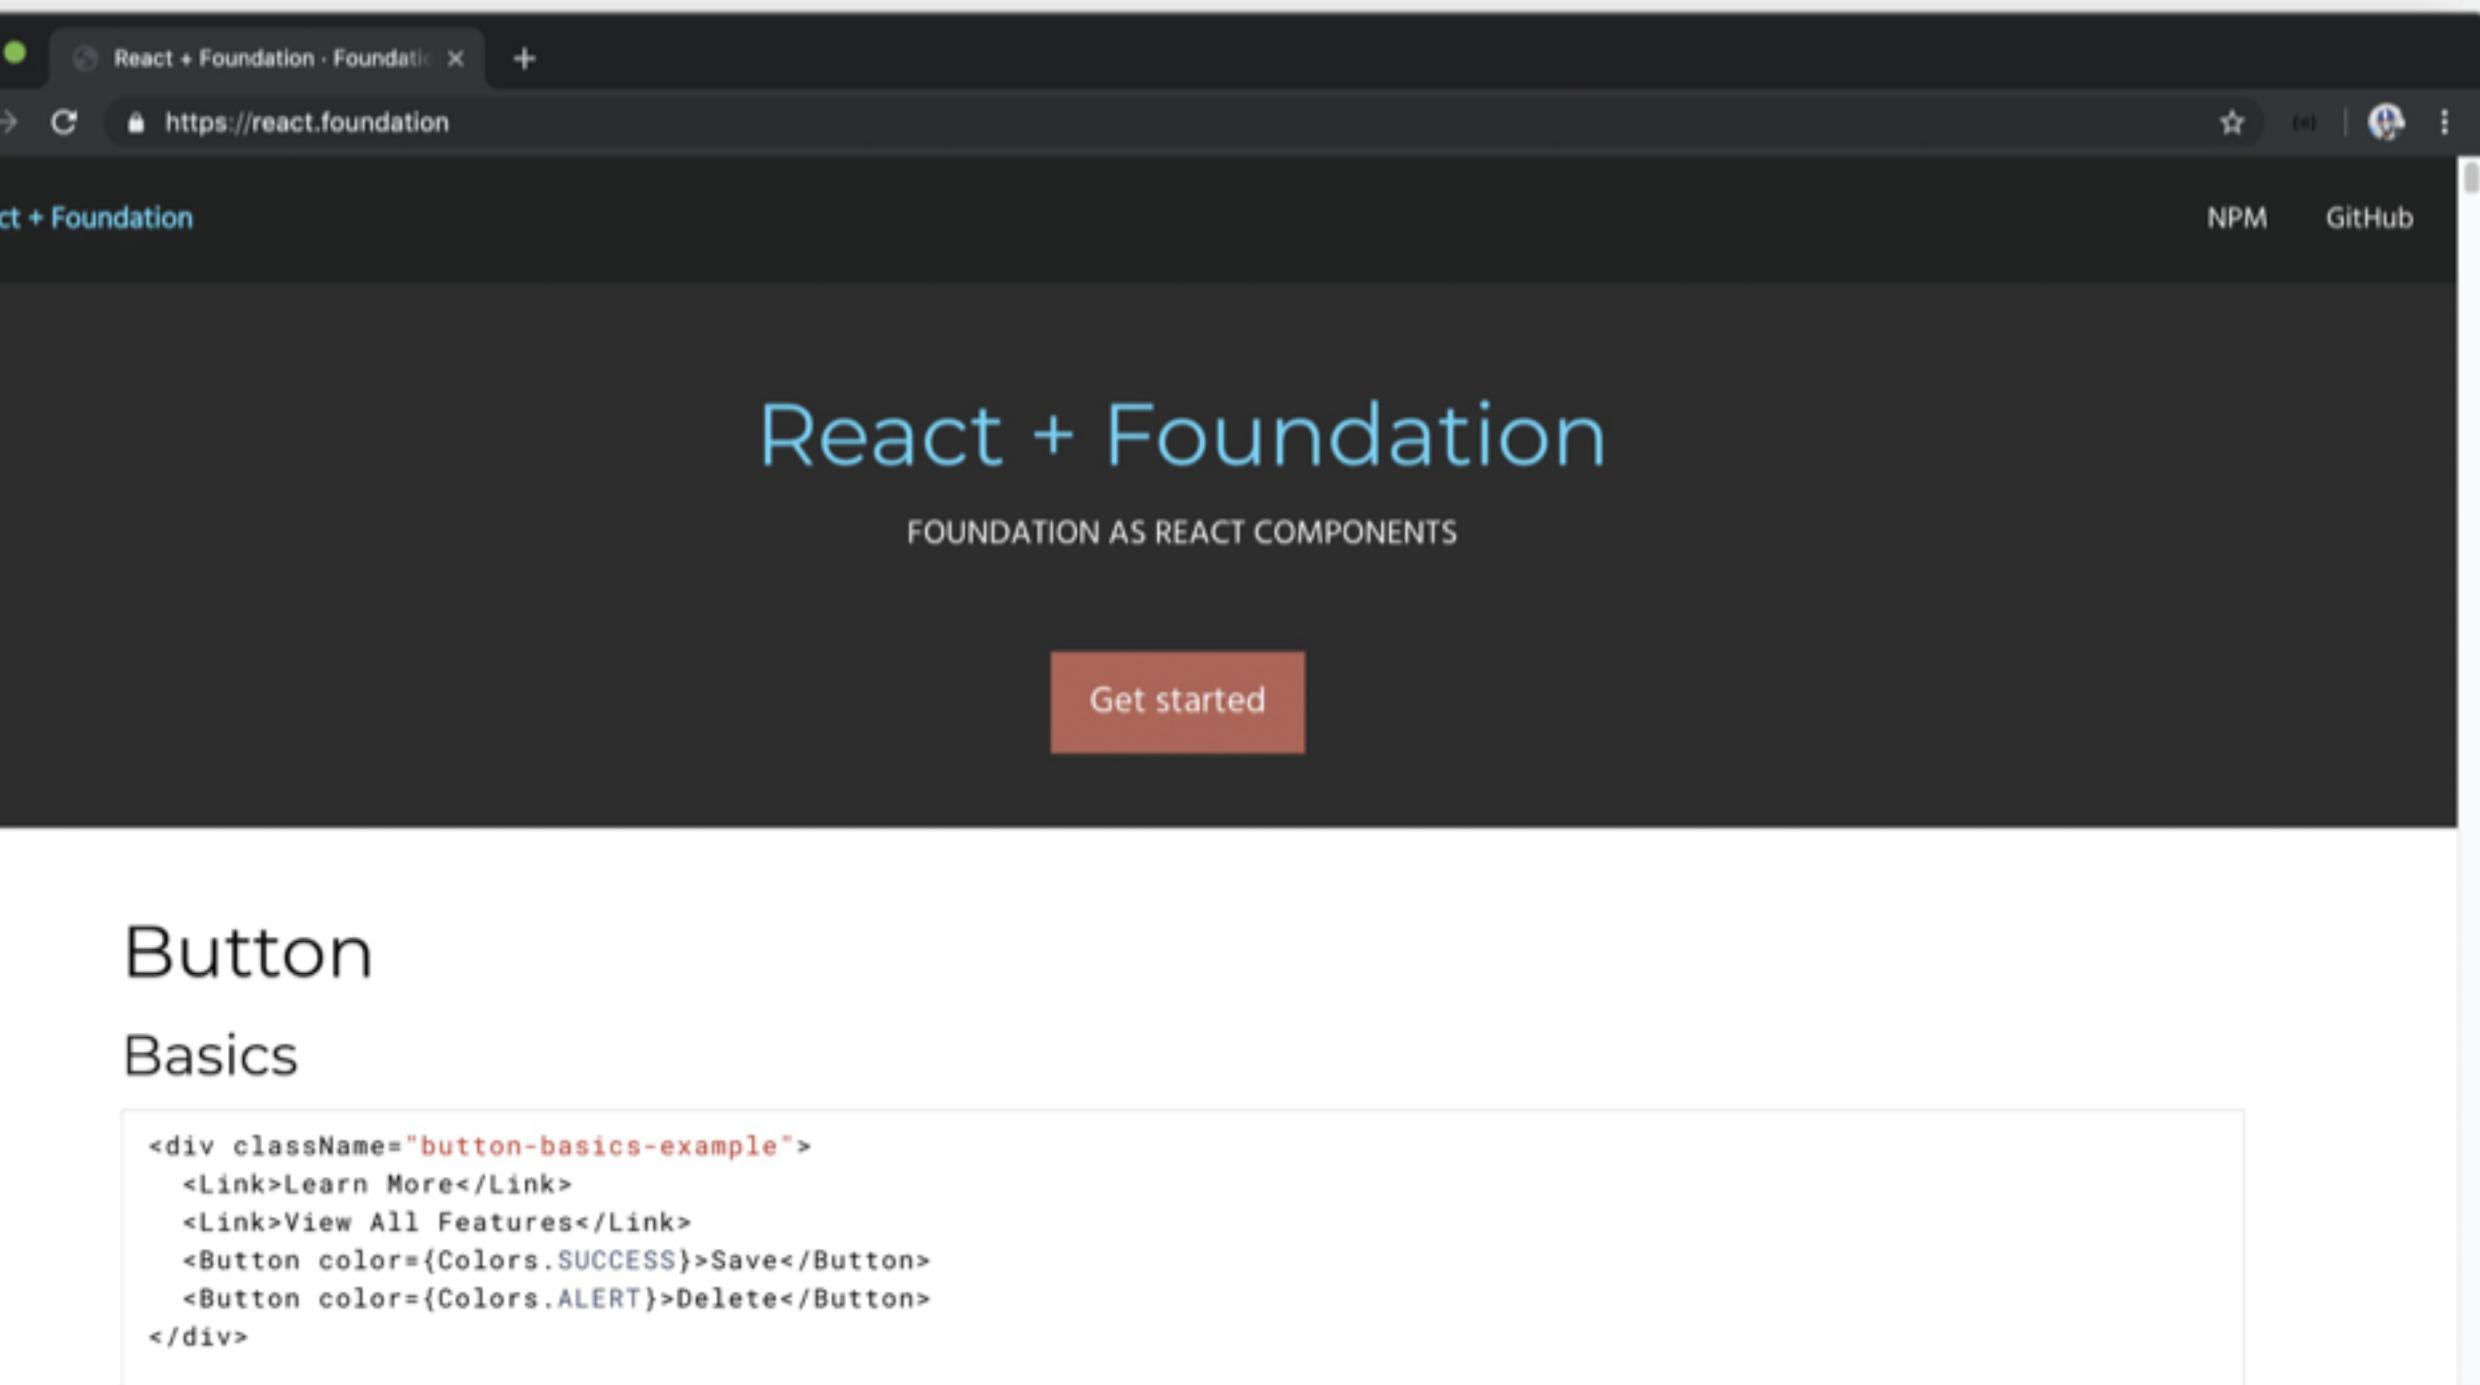

The screenshot shows the React Bootstrap homepage. At the top, there's a dark header with the React Bootstrap logo and navigation links for "Home", "Getting Started", and "Components". A dropdown menu indicates "v1.0.0-beta.9 (Bootstrap 4.3)". Below the header, a large "React Bootstrap" title is displayed, followed by the tagline "The most popular front-end framework" and "Rebuilt for React.". Two buttons, "Get started" and "Components", are present. A note at the bottom states "Current version: 1.0.0-beta.9". The main content area features three columns: "Rebuilt with React", "Bootstrap at its core", and "Accessible by default", each with a brief description.

The screenshot shows the Material-UI homepage. It features a large blue "M" logo. The title "MATERIAL-UI" is prominently displayed, followed by the tagline "React components for faster and easier web development. Build your own design system, or start with Material Design.". A "GET STARTED" button is visible. Social media icons for GitHub, Twitter, and LinkedIn are shown, along with statistics: 48,593 stars and 6,345 followers. A small note at the bottom right says "A quick word from our sponsors".

The screenshot shows the Semantic UI React homepage. On the left, a sidebar contains links for "GitHub", "CHANGELOG", "Getting Started" (with "Introduction" selected), "Elements" (listing "Icon", "Image", "Input", "Label", and "Loader"), and an "audience network by Facebook" advertisement. The main content area features the "Semantic UI React" logo and the text "The official Semantic-UI-React integration." Below this is an "Introduction" section with a "Get Started" button and a note about jQuery Free.

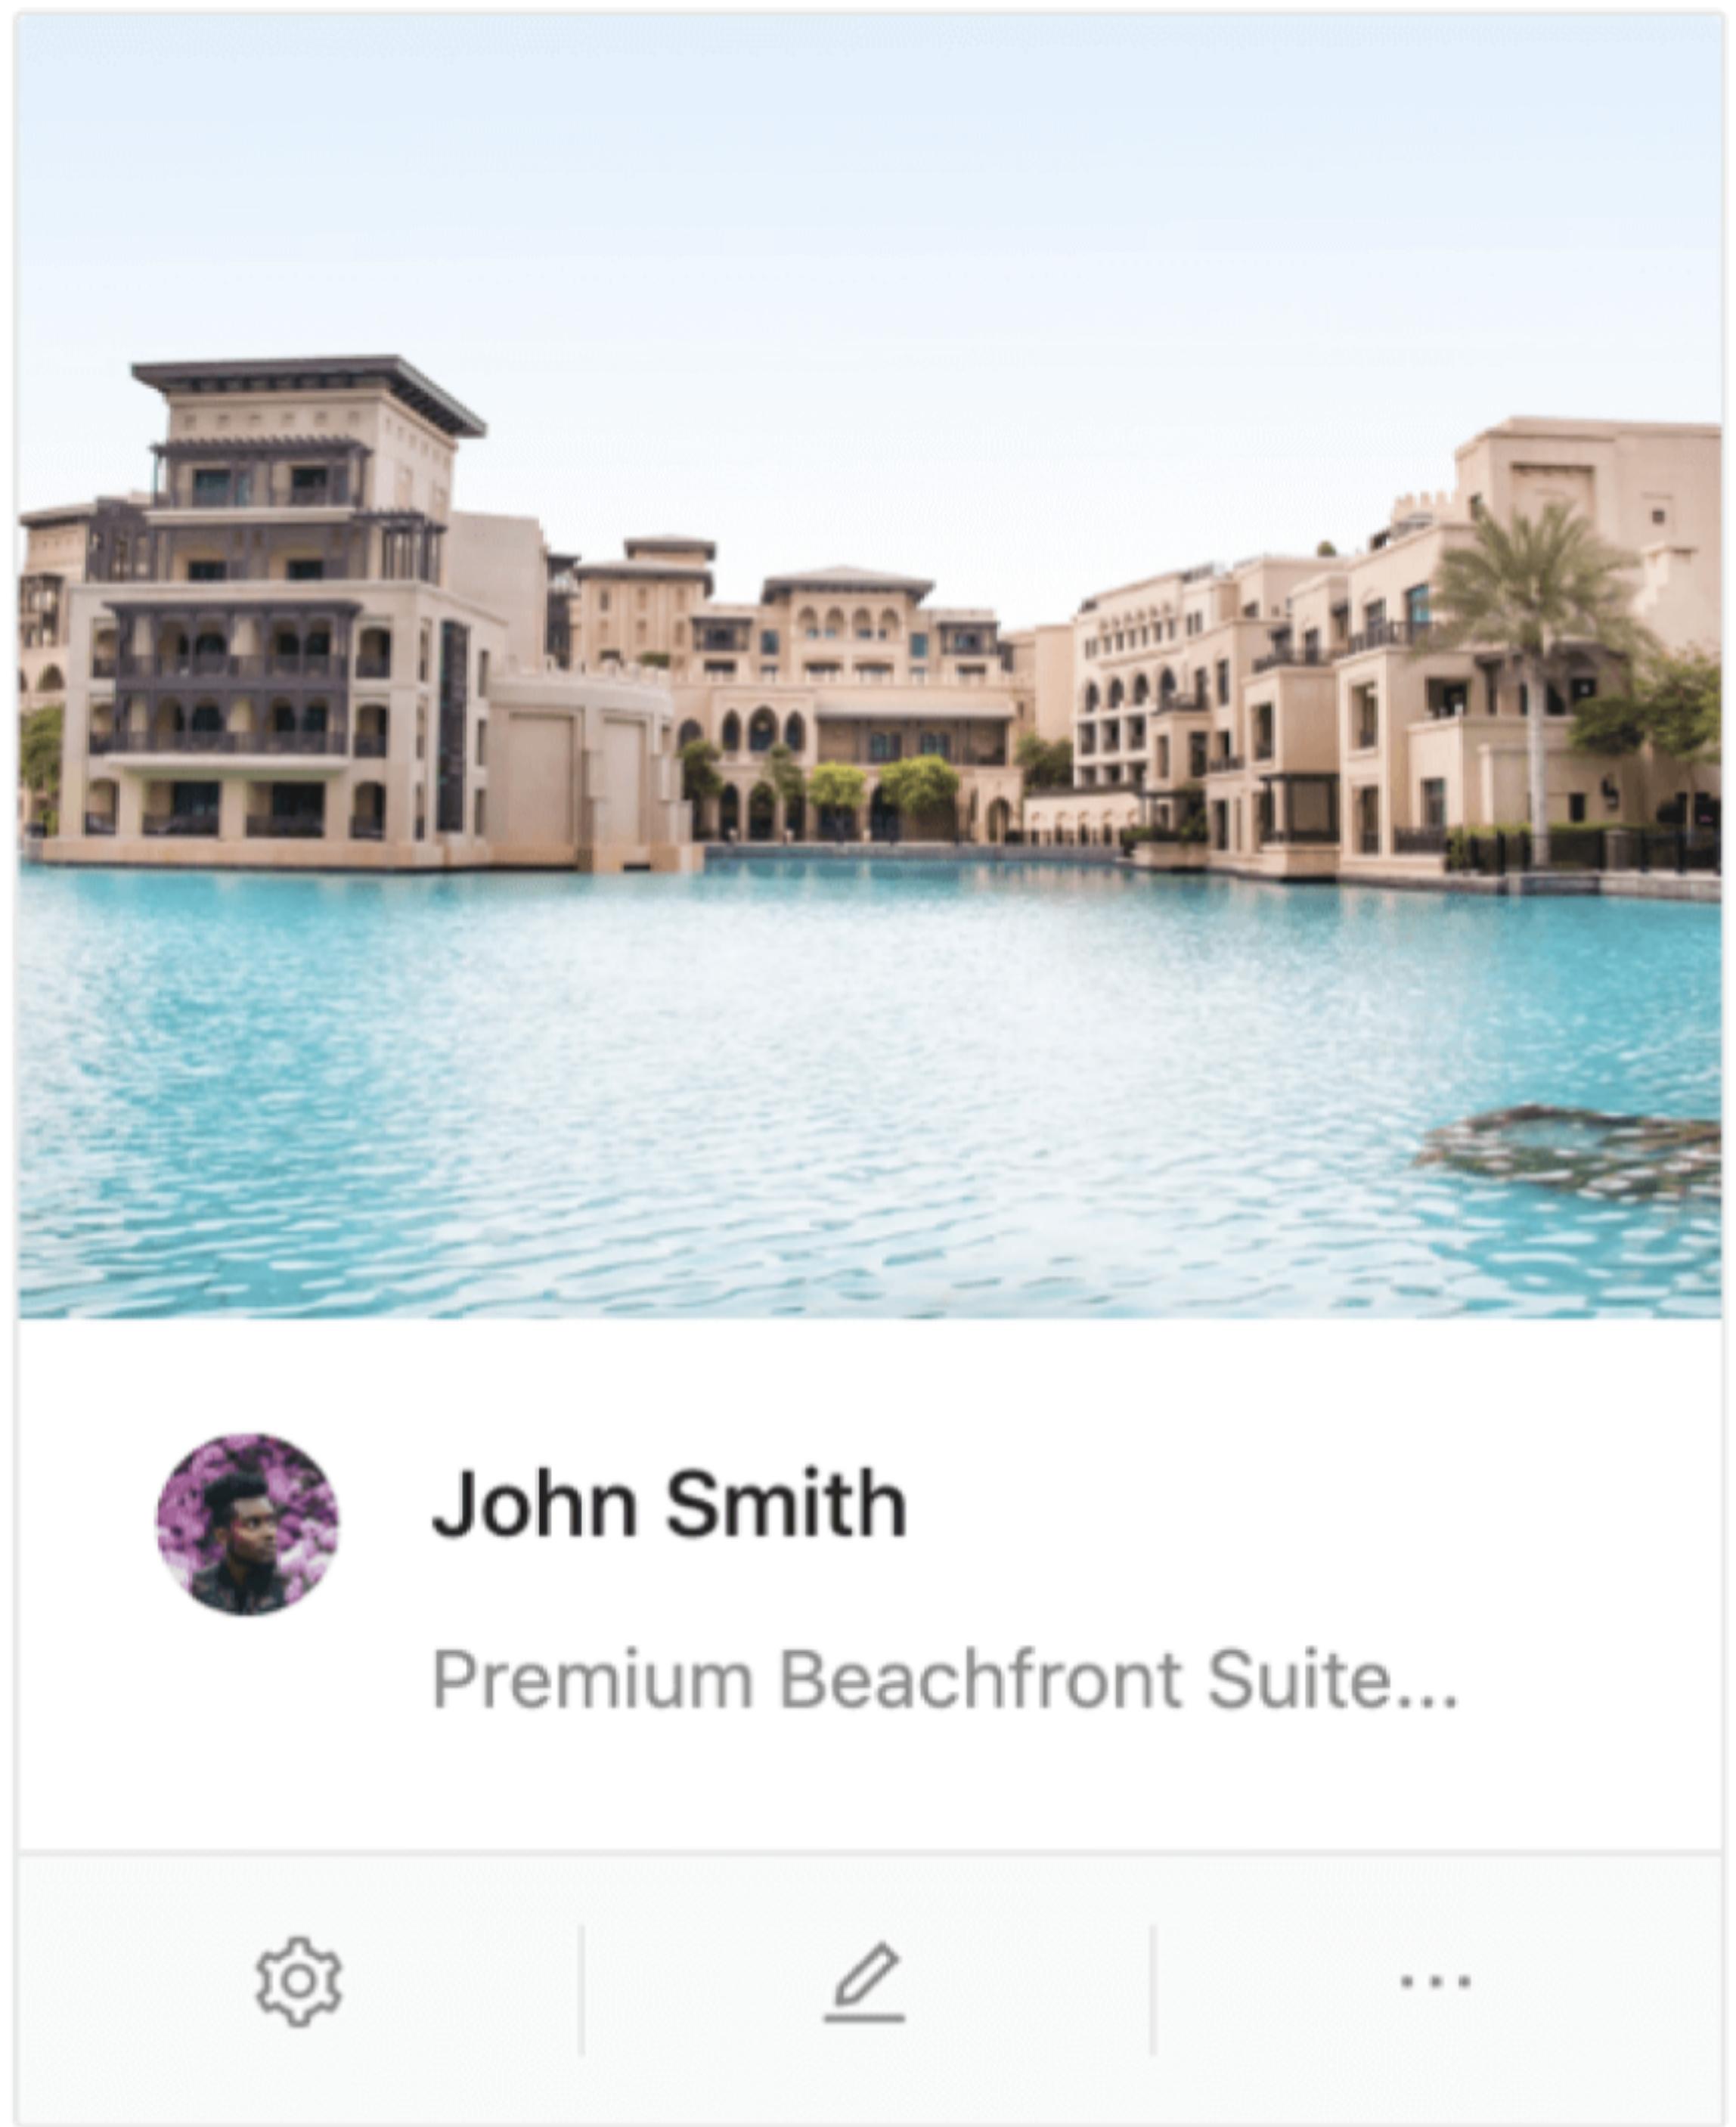

The screenshot shows the React + Foundation homepage. It has a dark header with the "React + Foundation" logo and links for "NPM" and "GitHub". The main content area features the title "React + Foundation" and "FOUNDATION AS REACT COMPONENTS". A "Get started" button is located in the center. Below it is a "Button" section with a "Basics" heading and a code snippet for a button component.

```
import { Card } from 'antd';

const ListingCard = () => {
  return (
    <Card
      style={...}
      cover={...}
      actions={...}
    />
  )
}
```

Ant Design - The world's secon X +

# Ant Design

A design system with values of Nature and Determinacy for better user experience of enterprise applications

Getting Started Design Language Star 48548

The graphic consists of a large, textured yellow circle at the bottom center. From its top, several black lines extend upwards and outwards to various geometric shapes: a red square, a blue triangle, a green circle, a blue circle, a red circle, and a yellow square. These shapes are set against a background that transitions from white at the top to a deep blue at the bottom, with a few small, isolated colored circles (green, blue, red) scattered around.

- Large number of available components
- Beautiful design patterns
- Easy to get started with
- Great documentation
- Additional steps to add customizations
- Significant increase in bundle size + some accessibility concerns
